Education

MA, Quantitative Methods, Psychology — September 2025 – Present
York University, Toronto, ON, Canada
Supervisor: Professor Christopher D. Green
Expected date of graduation: July 2027

BSc, Specialized Honours, Psychology — June 2025
York University, Toronto, ON, Canada — May 2023 – June 2025
GPA: 8.56 (out of 9.00), graduated *summa cum laude*
Supervisor: Professor Christopher D. Green
Thesis: The replication crisis: *p*-curves, *z*-curves, and stereotype threat
University of Western Ontario, London, ON, Canada — April 2023
GPA: 3.50 (out of 4.00)
66 course credits were achieved and subsequently transferred to York University in the continuation of my undergraduate degree.

Thesis

Undergraduate Honours Thesis — April 2025
The replication crisis: p-curves, z-curves, and stereotype threat
Supervisor: Professor Christopher D. Green
Synopsis: The purpose of my honours thesis was to investigate and compare proposed methods of detecting questionable research practices (QRPs) in large sets of results—with the goal being to help combat psychology's current replication crisis. This was done using the stereotype threat literature, which is an effect known to have issues replicating.

Software Development

R Packages Authored

Klorfine, G., & Friendly, M. (submitted to CRAN). *ggfourfold: Fourfold displays for 'ggplot2'*. https://gavinklorfine.com/ggfourfold/
Co-authored vignette: *Fourfold displays for 'ggplot2'*

Friendly, M., **Klorfine, G.**, Jeppson, H., Hofmann, H., & Cook, D. (2026). *ggmosaic2: Mosaic plots in the 'ggplot2' framework, extended*. https://doi.org/10.32614/CRAN.package.ggmosaic2
Authored vignette: *Introducing ggmosaic2: An enhanced ggmosaic*

Friendly, M., & **Klorfine, G.** (2026). *vcdExtra: 'vcd' extensions and additions*. https://doi.org/10.32614/CRAN.package.vcdExtra
Authored vignette: *Steps toward tidy categorical data analysis*

R Packages Contributed to

- *heplots: Visualizing Hypothesis Tests in Multivariate Linear Models* (CRAN)

Research in Preparation

Klorfine, G., & Friendly, M. (manuscript in preparation). *Steps toward tidy categorical data analysis in R.*

Klorfine, G., & Green, C. D. (manuscript in preparation). *Curves to detect bent truths: An investigation into p-curve and z-curve methods.*

Research & Professional Experience

Consultant, Statistical Consulting Service (SCS) September 2026 – Present
York University, Toronto, ON, Canada

Research Assistant, DataVis Lab April 2026 – Present
York University, Toronto, ON, Canada
Principal Investigator: Professor Michael L. Friendly
Hired to edit and provide technical support for Dr. Friendly's (in-progress) textbook, *Visualizing Multivariate Data and Models in R: A Romance in Many Dimensions*, to be published by CRC Press.

Research Assistant, GreenLab July 2024 – Present
York University, Toronto, ON, Canada
Principal Investigator: Professor Christopher D. Green
Researched and analyzed current trends regarding the (mis)use of statistics and artificial intelligence (AI).

Conference Presentations

Klorfine, G., & Green, C. D. (2025, May 24). *The replication crisis: p-curves, z-curves, and stereotype threat.* The Thirteenth Annual Canadian Statistics Student Conference (CSSC), University of Saskatchewan, Saskatoon, SK, Canada. [Oral presentation]

Klorfine, G., & Green, C. D. (2025, May 9). *The replication crisis: p-curves, z-curves, and stereotype threat.* Conference for Undergraduate Health Research (CUHR) 2025, York University, Toronto, ON, Canada. [Oral presentation]

Academic Awards and Recognition

Master's Fellowship. York University.	$10,806	2025 – 2026
PSYC 6136 Certificate of Excellence. York University.		2026
CSSC 1st Prize, Oral Presentation, Bachelor's. Statistical Society of Canada.	$100	2025
Dean's Honour Roll. York University.		2024, 2025
Continuing Student Scholarship. York University.	$880	2024
Provost Award. York University.	$1,000	2023
Dean's Honour List. University of Western Ontario.		2023

Teaching Experience

Teaching Assistantships, York University

HH/PSYC 2021 3.0 A: Statistical Methods I Fall 2026
HH/PSYC 2020 6.0 F: Statistical Methods I & II Fall/Winter 2025–2026

Guest Lectures, York University

(Mis)using Statistics, HH/PSYC 2020 6.0 F: Statistical Methods I & II March 18, 2026

Professional Workshops

Klorfine, G., & Laze, D. (2026, November 9, 16, & 23; scheduled). *Introduction to Python for data analysis.* Quantitative Methods Workshop Series, York University, Toronto, ON, Canada. [Workshop page] [Materials]

Klorfine, G., & Laze, D. (2026, June 26–28). *Introduction to Python for data analysis.* Quantitative Methods Workshop Series, York University, Toronto, ON, Canada. [Workshop page] [Materials]

Technical Skills and Qualifications

Programming languages (and development environments)

- R (RStudio)
- Python (Visual Studio Code; standalone PsychoPy)

Statistical and analytical software

- Jamovi
- JASP

Document preparation and markup

- LaTeX
- Markdown
- Quarto
- Microsoft Office Suite

Graphic design

- GNU Image Manipulation Program (GIMP)

Research methods and applied skills

- Categorical data analysis
- Data visualization
- Git and GitHub
- Anaconda

Academic Leadership and Service

Executive Team, Program Evaluation Committee October 2025 – Present
Psychology Undergraduate Mentorship Program (PUMP), York University
Collaboratively synthesize and report on feedback given to PUMP.

Mentor October 2025 – Present
PUMP, York University
Students mentored:

- Yibo Qi — Fall/Winter 2026–2027
- Umed Azimi — Fall/Winter 2025–2026
- M. Shaheer Ahmed — Fall/Winter 2025–2026

Information Day for Graduate Psychology Programs October 9, 2025
Department of Psychology, York University
Participated in a discussion panel followed by a lunch with professors and students, both prospective and current.

Professional Affiliations

Statistical Society of Canada (SSC), Associate Member — April 2025 – Present
Canadian Psychological Association (CPA), Student Affiliate — January 2025 – Present
